My passion are new technologies since I have use of reason. I like to keep myself update about new trends and internet world. I have been working as a programmer for five years, specially with web programming techs.

I have knowledge about frontend and backend, due to in my dialy day I use both parts. In my current position, I use the best modern good practices, work with patterns (ex. TDD, DDD...), giving them the need it support to solve any request, based on SOLID principies to ensure the achievement of their goals and progress in their strength.

SKILLS

Frameworks PHP (Symfony, Laravel, Zend...)

Frameworks JS front (Vue, React)

Style (Bootstrap, Bulma, Element, Semantic)

BBDD (MySQL, Postgresql, Mongo...)

Devtools (Bower, Gulp, Webpack...)

Mobile (Android, Ionic, Nativescript...)

Servers (nginx, apache)

EXTRAS

· Desarrollo de WebApps con HTML5 (CNTG)
· Desenvolvemento de aplicacións web con Angular2 (CNTG)
· Máster en Desarrollo Web Front-End (Campus MVP)
